Active Fiber® Have a license of manufacturing method patent

Natural dietary fiber taken from marine plants remove unnecessary salt and water out of your body!

Active Fiber is the world's first food product to absorb sodium, which is made from brown algae and produced by "Active Ion Method (specially licensed)".

Active Fiber has the ability to absorb sodium 20 to 30 times more seaweed and sea kelp!

Salt is the worst enemy of dieting! Taking salt can be the cause of gaining weight.

Water in your body have roles to send nutritions to the cells, and remove wasted materials. However, when there's a problem with the balance, water gets collected between each cells, and that can cause "swelling". This kind of water makes the body cold, causes blood circulation failure, and makes poor metabolism.

Removes the "salt" which can cause swelling! It supports the water metabolism.

Three ingredients are combined in good balance

Selected materials including "Cornsilk" which is well known for supplement for swelling.

In the market, the "Cornsilk" is getting popular as the main ingredient of supplement for swelling. We selected and combined the cornsilk as the main ingredient, and some other ingredients which are well known and effective.

Cornsilk and angelica

Improves how you feel through the synergistic effects of corn silk, which promotes expulsion of water, and angelica, which improves blood flow. Relieves swelling, sluggishness and fatigue by activating lymph blood flow in your legs.

Mugwort

Mugwort is one of the herbal medicines which makes the vital energy and blood flow smoothly, enhance the effect of built-in functions, and makes you feel full of energy. Mugwort also removes the impurities out of the body, which is effective to cure constipation, swelling, hot flush and bad skin condition.

Normalize the water metabolism, and get your original face and body line!
