

For a moist and brilliant  
tomorrow ~ brilliant beauty~

## GLY Inner mois granule 『Beauty White』

INNER MOIS Granule WHITE

Includes a lot of NUTRITION  
It's good for your health

Only strictly selected rich materials are used  
For women with a brilliant glow

- Collagen GLY tripeptide
- Ginseng berry extract
- Lychee seed extract
- Rose petal extract
- Vitamin C
- Vitamin E

Rare ginseng berry extract and a patented component of roses are added to “ultra absorption collagen” which has absorptive power approx. 18 times! Luxurious supplement for women

[Mixed berry flavor] Granule type  
2.5g × 30 packets / 8,500 yen (tax included)

# The smallest collagen that defies current conventional knowledge on collagen! Especially for collagen, the type is important.

## Super absorptive type "Collagen GLY tripeptide" composition

Collagen from food is comprised of approx. 3,000 amino acids, and has a very large molecular weight. It cannot be absorbed as is. Therefore, general supplement uses low molecular collagen which corresponds to about 100 amino acids, however, ultra absorption collagen which was cut collagen to the tripeptide (3 amino acids), to the minimum unit, the absorption speed is fast, and you can realize the effect right away.

Super absorptive type

Absorption amount  
18 times

Collagen GLY tripeptide

This is the smallest collagen unit, comprised of three amino acids with glycine in front.

This is different from conventional collagen supplement + synthesized collagen

	Gelatin Collagen	Collagen peptide (low molecular collagen)	Collagen GLY tripeptide
Molecular size	large		small
Absorption	small	only a fraction that happens to breakdown is absorbed	absorbed as is large
Activity in the body	small	Dissolved in the body and only becomes nutrition. Collagen synthesis is not promoted	large
			Collagen synthesis in the body is promoted

Swift attack on blemishes from inside the body

## Beauty skin & sunscreen supplement to drink

Three plant extracts to control melanin, and promote brilliant skin

Higher than arbutin  
Whitening effect

Ginseng berry, fruit from Asian ginseng. While "Ginsenoside Re," the beauty component hardly contained in Asian ginseng, it is abundantly found in the fruit. In addition to whitening properties, the beauty of skin is promoted, such as by improving blood circulation and anti-oxidant activity.

Skin whitening ①

Ginseng berry extract

Skin whitening ②

Lychee seed extract

Contains abundant polyphenol and flavonoids, which promote skin whitening activity.

Suppresses tyrosinase enzyme activity, to prevent melanin production. Also suppresses the breakdown of collagen.

Skin whitening ③

Rose petal extract

Patent acquired, proven whitening effect

Rose petal extract is abundant in polyphenol, suppresses the formation of melanin.
