

Nature, Technology, Quality.  
Bringing you the beauty of  
skin created by Japan.

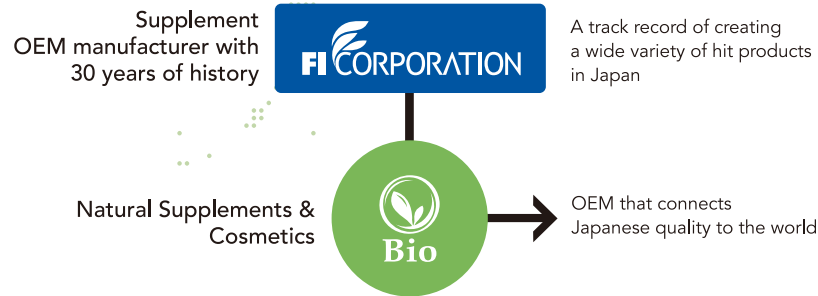

We are [Bio], develop and design unique and value-added health foods, supplements, and cosmetics.

We have established an integrated production system that includes the over 30-year-old parent company "FI Corporation" and partner manufacturers, from raw material blending to molding/processing, bottling, and packaging.

With our efficiency and flexibility, we can respond in detail to suit the market size and customer needs and characteristics, from small-lot production to mass production.

We make use of natural materials to create hit products with added value and a high level of Japanese quality.

New beauty sprouting  
from plant stem cells.

Beauty like a moon goddess.  
The clue lies in apple stem cells.

"I want to have firm skin, like a taut bow."

Tsukiyumi is a cosmetic product that focuses on the power of Swiss apple stem cells to support beautiful skin, and also contains plant-derived ingredients and noteworthy original ingredients.

A 4-step anti-aging care product that includes lotion, serum, milk, and cream, created using made-in-Japan technology.

Achieve beautiful skin that is firm and supple.

4step

step.1

### Water retention base Tsukiyumi Botanical SC Lotion

A lotion that can be applied to clean skin after washing your face. Penetrates to every corner of the stratum corneum and keeps it moisturized. By preparing the foundation for skin care, subsequent skin care will be smooth. Contains ingredients such as apple fruit cultured cell extract (moisturizing) for fresh skin.

Tsukiyumi Botanical SC Lotion 98ml  
Manufacturer's suggested price ¥14,300 (tax included)

step.2

### Condensation penetration Tsukiyumi Botanical SC Serum

A beauty serum that addresses deep skin concerns. Contains plant extracts such as apple fruit cultured cell extract (moisturizing) and ingredients such as acetyl hexapeptide-8 (firmness). Concentrated moisture penetrates into the stratum corneum, leaving your skin feeling shiny and firm.

Tsukiyumi Botanical SC Serum 32ml  
Manufacturer's suggested price ¥17,600 (tax included)

Softens and softens the skin,  
leaving it with a firm and  
glossy texture.

formulation

- ⊗Paraben
- ⊗Ethanol
- ⊗Silicon
- ⊗Synthetic fragrance
- ⊗Synthetic coloring agent
- ⊗UV absorber

step.3

### Soft skin conditioning Tsukiyumi Botanical SC Milk

An emulsion that replenishes moisture and oil in a well-balanced manner, making the skin soft. For aging skin, use apple fruit cultured cell extract (moisturizing) and acetyl hexapeptide-8 (firmness) to make your skin firm and bouncy.

Tsukiyumi Botanical SC Milk 60ml

Manufacturer's suggested price ¥14,300 (tax included)

12 moisturizing  
ingredients

Apple fruit cultured cell extract

Chamomile flower extract

Althea root extract

Calendula flower extract

Kudamon Passiflora fruit extract

Water-soluble proteoglycan

Scutellaria root extract

Rosa roxburghii extract

Bilberry leaf extract

Mentha leaf extract

Psyllium seed extract

Acetyl hexapeptide-8

12 moisturizing  
ingredients

Apple fruit cultured cell extract

Chamomile flower extract

Althea root extract

Calendula flower extract

- ⊗Silicon
- ⊗Synthetic fragrance
- ⊗Synthetic coloring agent
- ⊗UV absorber

step.4

### Sealed protection Tsukiyumi Botanical SC Cream

A cream that melts into your skin and provides a moisturizing lid to finish off your skin care routine. Protects your skin from daytime irritation in the morning and dryness at night, resulting in beautiful skin that resists damage. Moisturizing ingredients, apple fruit cultured cell extract and proteoglycan (firmness) give it a bouncy firmness.

Tsukiyumi Botanical Cream 48g
